

ARAVINDKUMAR R

Full Stack Developer

akaravind110@gmail.com | +91 93612 31747

PROFESSIONAL SUMMARY

Full Stack Developer with 2.2 years of experience building scalable and user-friendly web applications. Skilled in Python, SQL, React.js, JavaScript, and FastAPI, with a strong ability to develop efficient backend systems and responsive frontend interfaces. A quick learner and collaborative team player, passionate about delivering reliable software solutions that support business growth and improve user experience.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript

Backend Frameworks: Django, Flask, FastAPI

Frontend Technologies: HTML5, CSS3, Tailwind CSS, React.js

API Development: RESTful APIs, Third-party API Integration

Web Scraping & Automation: Playwright, Selenium

Databases: MySQL, PostgreSQL, MongoDB

Version Control: Git, GitHub

PROFESSIONAL EXPERIENCE

Vpearl Solutions Pvt Ltd

Chennai, India

Python Full Stack Developer

Mar 2026 – Present

- Developing and maintaining full stack web applications using Python, React.js, and modern frameworks
- Building and integrating RESTful APIs to support frontend and third-party service requirements
- Collaborating with cross-functional teams to deliver scalable, high-quality software solutions
- Contributing to code reviews, testing, and continuous improvement of development workflows

Access Healthcare Services Pvt Ltd

Chennai, India

Python Backend Developer

Mar 2025 – Feb 2026

- Developed backend systems using Flask and Django, supporting real-time data-driven applications
- Created secure and scalable REST APIs with JWT authentication and role-based access control
- Built automated scraping pipelines using Selenium, handling dynamic content and CAPTCHA scenarios
- Improved system reliability by implementing logging, exception handling, and monitoring tools
- Assisted in frontend integration by collaborating closely with React developers
- Participated in code reviews and maintained CI/CD workflows

Azista Industries Pvt Ltd

Bangalore, India

Python Developer

Apr 2024 – Mar 2025

- Designed, developed, and deployed scalable web applications using Django and FastAPI
- Built and maintained RESTful APIs for authentication, data processing, and third-party service integrations
- Developed dynamic and responsive user interfaces using React, TypeScript, HTML5, and Tailwind CSS
- Designed relational database schemas in PostgreSQL and MySQL, and managed NoSQL data storage using MongoDB
- Wrote reusable, modular, and well-documented code following best practices and design patterns

PROJECTS

AI Claim Pathway — *React, Flask, AWS Bedrock*

- Built a full-stack AI-assisted claim processing tool using React and Flask to parse healthcare claim JSONs and generate intelligent prompts
- Integrated Excel/CSV data pipelines with APIs for retrieving claim details and prompts
- Enabled real-time analysis and guided decision support for healthcare workflows

Appeal Notes - AI Medical Summary — *FastAPI, AWS Bedrock, Ollama*

- Built an AI-powered solution to generate professional medical insurance appeal summaries from claim data and practice notes
- Leveraged AWS Bedrock and Ollama models for natural language processing and automation

Pre Call Summary — *Python, Bedrock-Sonnet, Ollama*

- Developed an AI-driven solution to generate concise pre-call summaries for business meetings
- Leveraged models like Bedrock-Sonnet and Ollama for natural language processing and automation
